this special issue of neutrosophic sets and systems a compilation of a workshop held
at the universidad tecnológica de el salvador explores the application of neutrosophic
frameworks in a dialogue with latin american worldviews to address contemporary
challenges the volume challenges traditional western logic which often fails to capture
the complexity and ambiguity of real world contexts particularly in latin america it
highlights how neutrosophy's embrace of indeterminacy and contradiction can provide
a more flexible and contextualized understanding the papers presented bridge
neutrosophic concepts with indigenous knowledge systems such as amerindian
perspectivism which already transcend classical dualisms the research covers diverse
topics including the use of neutrosophy in medical decision making trend identification
in scientific articles via natural language processing and the evaluation of sustainable
projects that integrate ancestral knowledge into the circular economy the issue
demonstrates the contributions of latin american thinkers to non classical logic and
showcases neutrosophy's potential to provide philosophical and practical solutions to
social problems

includes summaries of proceedings and addresses of annual meetings of various gas
