the report provides fundamental knowledge about wood its characteristics and fastenings as related to pallet design and production also discusses plant layouts and economics author

the north american industry classification system naics is the standard used by federal statistical agencies in classifying business establishments for the purpose of collecting analyzing and publishing statistical data related to the u s business economy it is a joint work between the untied states canada and mexico that allows a high level of comparability between the countries the naics officially replaced the sic standard industrial classification system in 1997 the publisher has included the sba size standards table as an appendix at the back of this book to assist users of the data should you have suggestions or feedback on ways to improve this book please send email to books ocotillopress com if you would like to order a copy of this book as a 3 ring punched looseleaf print please contact books ocotillopress com

manufacturing distribution usa presents statistics on more than 500 sic and naics classifications in the manufacturing wholesaling and retail industries information is compiled from the most recent government publications and includes projections maps and graphics this new edition also features enhanced coverage of input output data by industrial sector when available as well as classifications of leading public and private corporations in each industry

comprising a collection of papers from the 4th international conference on environmental and economic impact on sustainable development the research studies included in this book consider the impact of economic constraints on the environment taking into account the social aspects as well as the over use of natural resources the papers examine issues related to whether some forms of development are compatible with environmental protection particularly in cases of possible serious contamination and toxicity uncontrolled development can result in damage to the environment in terms of the release of toxic substances and hazardous waste addressing problems of great importance this book examines

more constructive and progressive approaches to ensure sustainability a major motivation is to learn from past failure to avoid repeating similar mistakes while attempting to prevent emerging threats to environmental and ecological systems fundamental to these concepts are the analysis of the inherent risk and the development of appropriate strategies

s2we know about some of the general problems of pallet manufacture marketing and use and we know that demand is probably growing faster for wood pallets than for any other major lumber product yet except for one study we have little specific information about the characteristics of the various pallet markets to maintain and expand the pallet industry and to facilitate efficient utilization of the forest resource we need to know more about the individual markets for wood pallets s3
