this practical guide to promoting and developing independent learning is presented in a
 mixed format using both diagrammatic and textual stimulus it offers tips and suggestions to
 achieve effective teaching and learning and raises standards by enabling the pupil to
 become independent and responsible for their own learning autonomous in their thinking
 and creative and critical in their understanding liz lakin describes a progression away from
 dependency on the classroom teacher whose role changes readily from teacher to
 facilitator drawing on practice based research she introduces the skills and processes
 associated with independent learning through established strategies such as assessment
 for learning the use of active learning techniques problem solving activities and peer
 assessment each chapter presents tried and tested ideas strategies and activities for the
 development of higher order skills such as application synthesis evaluation and reflection to
 use with pupils across the dependency spectrum several relate to the higher levels of
 attainment and are therefore applicable at key stage 3 the effectiveness of teacher pupil
 feedback and the role of homework form a significant focus for the latter part of the book a
 truly thought provoking interactive book with a difference that takes teachers on a learning

journey it encourages us to reflect on how we learn how our pupils learn and what the collective implications for effective teaching and helping pupils to construct their learning are reading and actively engaging with this book is indeed a learning journey invaluable to practitioners the text contains many invaluable references and deals with topics such as the value of homework how people learn and how people respond to techniques addressed to them in learning situations an essential reading for practicing teachers and particularly students in training and their tutors dr sue dale tunnicliffe senior lecturer in science education institute of education university of london uk there has never been a time when independent learning is more important in school science in developing independent learning in science liz lakin challenges the reader to examine how they teach science and why pupils respond as they do the result is a book that should be of great value to those who teach science to 7 12 year olds and to science educators in general a particular strength is the way the author interweaves rigorous thinking about learning with activities for the reader to help them engage with the text in addition there is a mass of useful thinking in here and plenty of classroom suggestions the book is worth reading simply for the honesty of the how not to climb helvellyn case study michael j reiss professor of science education institute of education university of london uk in this book liz lakin involves the readers in the kind of independent learning that she is describing and advocating it should enable practising teachers to stand back from their work to consider why we want children to learn in a certain way as well as providing useful ideas about how to do it it is written in a personal and engaging style and is a unique addition to books on science teaching wyne harlen obe phd visiting professor of education university of bristol uk
