elections and technology are inseparable in today's world technology is regarded as a technical instrument to attain certain electoral goals such as efficiency and effectiveness as well as to ensure a high quality process and integrity of results however in practice the proposition of adopting technology in elections is often not accompanied by deep thinking and adequate preparations consequently the use of technology often becomes a paradox the intention being to solve a problem but new problems are created instead based on this observation this guide has been written to provide a tool for election administrators or nations which like indonesia are considering the use of technology in elections in indonesia technology has been widely used since the 2014 general elections especially to meet open data principles in elections despite this the general elections of 1999 2004 2009 and 2014 and various regional elections have used electoral technology for only two main objectives data tabulation and transparency of the electoral process at the time of writing e voting and e recapitulation are being discussed for implementation in indonesia's future elections as well as providing step by step guidance and points of consideration for various decision makers this guide also features various types of voting technology that exist to date accompanied by the experiences of several countries in using them the guide describes the various types of electoral technology that have been used in indonesia capturing their track records and the lessons learned lessons that may be useful to other countries demonstrating that voting technology does not need to be limited to e voting

the belen cutoff gave the at sf railway a legitimate transcontinental freight line by eliminating the steep grades of raton pass the cutoff also transformed the eastern plains of new mexico in the first half of the twentieth century leading to new mexico's most significant population increase as many homesteaders came to the region this book tells that story by providing the perspectives of the at sf balanced by the experiences and narratives of railroad workers homesteaders and others new research includes detailed consideration of internal railroad documents local newspapers and extensive oral history interviews as a result this is the definitive account of the belen cutoff and provides a more complete and nuanced history of the region and the at sf railway in new mexico
